

Raspberry fieldgrown

The specialist in **specialty fertilizers**

Fruit production Fieldgrown

Fruit production fieldgrown

Exact dosage/ week/ ha depending on plant system and plan type. Please contact our specialists for customized advice.

Field-Cote® CRF Contains: **Durable® CRF**
Controlled Release Fertilizer

17+7+11+7MgO+TE 4M 200-250 kg/ha

Granufert® WSF Water Soluble Fertilizer	16+6+16+3MgO+ 6CaO+TE (N :K 1:1)	20-40 kg/ ha/week	40-60 kg/ ha/week			
Granufert® WSF Water Soluble Fertilizer	13+6+24+3MgO+ 6CaO+TE (N :K 1:2)			60-80 kg/ ha/week	60-100 kg/ ha/week	
Granufert® WSF Water Soluble Fertilizer	6+8+30+2MgO+TE (N :K 1:3) Don't mix with Calcium products					60-100 kg/ ha/week/
Granusol® WSF Water Soluble Fertilizer	Micro High MgO Don't mix with Calcium products			1-2 kg/ha/week	1-2 kg/ha/week	1-2 kg/ha/week

Granufert WSF total 100 kg / 1000 liter stock 1% dosed - Granusol WSF Micro 1-2 kg / 1000 liter stock 1% dosed. **Fertigation schedule Fieldgrown.**

Before and during cultivation manage nutrition levels with drip- drain- substrate- analyses. Nutrition levels depends on plant period, plant stadium, plant variety, soil type, climate and water management.

High carbonate levels need to be neutralised with acid. Do not mix Granufert WSF calcium products with Granufert WSF products without calcium in one tank.
